WORK EXPERIENCE

FRONT-END DEVELOPER

Washington, D.C.

Center for the Study of Services / Consumers' Checkbook

Jun 2024 – Present

- Led migration and redesign of the company's research department corporate website, transitioning from ColdFusion to Next.js, delivering a modern, responsive design and improving page load speed and increasing incoming user traffic.
- Developed, and launched a new organization-wide marketing website using Next.js, including full Azure cloud setup: configured App Service, created resource groups, and implemented security rules and best practices, alongside Azure DevOps CI/CD pipelines, reducing deployment time by 70% and ensuring zero downtime during releases.
- Implemented WCAG 2.1 AA and 2.2 AA accessibility compliance for Health Plan Comparison and Provider Directory tools, enhancing usability for all users and meeting regulatory standards.
- Maintained and enhanced 3+ Angular-based tools, resolving critical bugs and introducing new features, while contributing to feature design and logic for better user experience.

FULL STACK DEVELOPER / TECHNICAL LEAD

Fairfax, VA

Hathiant (formerly Acistek Corporation)

Feb 2021 – Jun 2024

- Led front-end and back-end development of a PHP/MySQL/JavaScript/jQuery web application for a federal agency, streamlining the process of negotiating indirect costs with grantees through secure internal and external user portals.
- Directed development of a ColdFusion/MSSQL web application enabling users to manage Secretary-held Partial Claim mortgages, resulting in 40% faster request processing for payoffs and subordinations.
- Collaborated in Agile ceremonies including sprint planning, application design, requirements gathering, development, and retrospectives to ensure timely delivery of high-quality solutions.
- Implemented SSP security controls and Section 508 accessibility compliance, ensuring full regulatory adherence and improving accessibility for all users.
- Proactively mitigated critical vulnerabilities (XSS, SQL Injection), maintaining zero high-severity security incidents during project lifecycle.

LEAD TEACHERS/LAB ASSISTANT

Harrisonburg, VA

James Madison University Computer Science

Sep 2017 - May 2020

- Assisted students on programming projects and assignments in the classroom and in evening lab sessions.
- Assisted professors in the classroom

SKILLS

Front-End Frameworks & Libraries: Next.js, React, Angular, Vue, Tailwind CSS, Bootstrap, Material UI
